

Tree planting cost-share program up to 25%

Funded by:

Brookings County Conservation District (BCCD)
&
Brookings County Pheasants Forever (BCPF)

The Brookings Conservation District (BCCD) will provide up to 12.5% cost-share along with the Brookings County Pheasants Forever (BCPF) who will provide up to 12.5% cost-share assistance.

Cost assistance will be on a first come first serve basis. The planting must be at least 1.5 ac for single site planting, for more than one planting site, the total plantings must be at least 2 ac in size with a limit of 4 ac per operator/family per year.

All sites will **require** fabric to be installed to receive the BCCD portion of the cost-share.

Planting must enhance wildlife value of the area. All projects will be evaluated for appropriateness by BCPF personal before being approved.

Project must be implemented by the BCCD in order to be eligible to receive these funds.

Producer must pay bill in full before being reimbursed by the BCCD and BCPF; this is to insure payment in full to the BCCD.

Producer is responsible for replacing dead trees to ensure 100% survival, for 3 years after planting, and agrees to keep practice in place for the life of the trees. Producer is responsible for all weed control.

This will not be a supplement to existing USDA cost-assistance programs and are not eligible under this program.
